This is an economical BW version; This work shows how real science is done rather than guessing and assuming. It teaches how to handle any mystery or crime, and break it down into manageable parts to get to the truth. It is straight to the point, compact, and doesn t require a PHD in science to understand it. The Supporting website is updated monthly. Discussions take place in Schools, Universities, Buses Bars around the world about whether the moon landing were real or not. Bad science can affect real science in the public domain. It can affect project budgets, potential career choices public opinion on many scientific matters. On rare occasions, it has been taught in schools as fact. This book is to put the record straight and bury this problem by using science that everybody can understand rather than the pure guesses.
