Oxford University Press, United Kingdom, 2015. Hardback. Book Condition: New. 280 x 224 mm. Language: English . Brand New Book. Covering both principles and practice, The ESC Textbook of Preventive Cardiology is a state of the art resource for both the primary and secondary prevention of atherosclerotic cardiovascular disease. Comprehensive, practical and extensively linked to practice guidelines and recommendations from the European Association for Cardiovascular Prevention and Rehabilitation (EACPR), it clearly connects the latest evidence base to strategies and proposals for the implementation of prevention in clinical practice. With a strong clinical focus the topics covered range from epidemiology and risk stratification through psychological factors, behaviour and motivation to secondary prevention, integrating hospital-based and community care for cardiovascular disease prevention and information on cardio-protective drugs. Case studies, clinical decision-making trees and drug tables with recommended doses and potential side-effects make it easier than ever to implement treatments in practice. Drawing together current knowledge and evidence, and examining all aspects of preventive cardiology in one succinct volume, The ESC Textbook of Preventive Cardiology is the ideal guide for the physician and allied health professional working to prevent and treat cardiovascular disease in their daily practice. This print edition of The ESC Textbook of Preventive Cardiology comes with access to the online version on Oxford Medicine Online, for as long as the edition is published by Oxford University Press.
