

Land Use Changes in Europe

Filesize: 7.48 MB

Reviews

The publication is easy to read through better to recognize. It usually will not cost too much. You won't feel monotony at whenever you want of the time (that's what catalogs are for concerning when you question me).

Book Condition: New. Publisher/Verlag: Springer Netherlands | Processes of Change, Environmental Transformations and Future Patterns | The patterns of land use that have evolved in Europe reflect the boundaries set by the natural environment and socio-economic responses to the needs of the population. Over the centuries man has been able to overcome increasingly the constraints placed on land use by the natural environment through the development of new technologies and innovations, driven by an increasing population and rising material expectations. However, activities are still ultimately constrained by natural limitations such as climatic characteristics and associated edaphic and vegetational features. A major problem for land management, in its broadest sense, can be a reluctance to foresee the consequent ecological changes. This means that mitigating strategies will not be implemented in time to prevent environmental degradation and social hardship, although in many parts of Europe, over some centuries, demands have been met in a sustainable way, by sound, prudent and temperate expectations that have dictated management regimes. The management of land in Europe has always been a complex challenge: land is the primary, though finite resource. Decisions regarding the use of land and manipulation of ecosystem dynamics today may affect the long-term primary productivity of the resource. Decisions to change land use may be virtually irreversible; urbanization is an illustration of the influence of population density on the land resource. | 1. Land Resources, Land Use and Projected Land Availability for Alternative Uses in the EC.- 1.1. Introduction.- 1.2. Land Use Structure.- 1.3. Climate and Soils.- 1.4. Slope Characteristics of Land.- 1.5. Assessing Future Land Requirements for Major Uses in the EEC.- 1.6. Projected Land Use Changes.- 1.7. Concluding Remarks.- 2. Trends in the Transformation of European Agriculture.- 2.1. Introduction.- 2.2. Types of Agriculture in Europe.- 2.3. Agricultural Regions in Europe.- 2.4....
