Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Pronunciation of English in Scotland This book is intended primarily as a Phonetic Manual J- for the use of students in Scottish Training Colleges and Junior Student Centres, but it is hoped that it may prove useful to teachers of English of all grades in our Scottish schools, to lawyers and ministers and all those who, in the course of their calling, have to engage in public speaking. Foreigners, too, may find that the more conservative pronunciation of educated Scotland as depicted in this volume, is easier to acquire than the Southern type of English, and all students of language should be interested in the study of the Scottish variety of Standard English. As the Scotch Education Department has recommended the study of Phonetics in its Memorandum on the teaching of Modern Languages (p. 5) and in its Memorandum on the teaching of English in Primary Schools (p. 8), and as our Training Centres have incorporated the subject in their time-tables, it has become practically obligatory for all teachers of language. Phonetics as the best basis for Modern Language study, is now generally admitted except in quarters hopelessly obscurantist. We are also firmly convinced that some phonetic training in the early stages of the school curriculum is a desirable thing because it cultivates the observing faculties of the child, appeals to an intelligent interest in facts, and has an important bearing on clear, distinct enunciation, correct pronunciation and expressive reading. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
