

The Water-Supply of the City of New York. 1658-1895 Volume 3

By Edward Wegmann

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1896 Excerpt: .was made in the following headings: In some cases much greater progress than given in the above table was made for a short period of time. In the south heading from shaft 15, Paige, Cary Co., the superintendents (sub-contractors) for section 7 drove the tunnel through hard, fine-grained gneiss 102 feet in 13 shifts during one week (February 19 to 26, 1887). Only the usual force of men were employed. Three Rand Slugger drills were used. The holes were charged with rackarock. A blast was fired in each shift. When the tunnel, driven north from shaft 16, reached the rock in which the great run mentioned above had been made in the south heading from shaft 15, Denton, Breuchaud Co., the superintendents for section 8, made an effort to surpass the record of their neighbors, to prove the merits of the system of tunnelling they had...
