Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.You who have read The Mad Planet by Murray Leinster, will welcome the sequel to that story. The world, in a far distant future, is peopled with huge insects and titanic fungus growths. Life has been greatly altered, and tiny Man is now in the process of becoming acclimated to the change. We again meet our hero Burl, but this time a far greater danger menaces the human race. The huge insects are still in evidence, but the terror they inspire is as nothing compared to the deadly Red Dust. You will follow this remarkable story with breathless interest. The sky grew gray and then almost white. The overhanging banks of clouds seemed to withdraw a little from the steaming earth. Haze that hung always among the mushroom forests and above the fungus hills grew more tenuous, and the slow and misty rain that dripped the whole night long ceased reluctantly. As far as the eye could see a mad world stretched out, a world of insensate cruelties and strange, fierce maternal solitudes. The insects of the night-the great moths whose wings spread far and wide in the dimness, and the huge fireflies, four feet in length, whose beacons made the earth glow in their pale, weird light-the insects of the night had sought their hiding-places.
